

SAURABH YADAV

Full Stack Web Developer (MERN | PHP | MySQL)

+91 7011608210 | saurabhYaduvanshi2018@gmail.com | New Delhi, India | [linkedin.com/in/saurabh-yadav-merndev](https://www.linkedin.com/in/saurabh-yadav-merndev) | github.com/SaurabhYaduvanshi2025

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with hands-on experience building high-performance static sites and dynamic web applications using the MERN stack and PHP/MySQL. Proficient in architecting RESTful APIs, implementing secure authentication, and applying Object-Oriented Programming principles to deliver clean, scalable, and maintainable code. Proven track record delivering live client projects, including dynamic CMS platforms and full-featured e-commerce websites. Actively seeking a role to deepen expertise, contribute to impactful products, and grow within a collaborative engineering team.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), PHP
- Frameworks & Libraries: React.js, Node.js, Express.js
- Databases: MongoDB, MySQL
- Frontend Tools: HTML5, CSS3, Bootstrap 5, Vite, UI Templates / Custom Designs
- Version Control: Git & GitHub
- Other Competencies: CRUD Architecture, RESTful API Development, Object-Oriented Programming (OOP), PHP Mailer, Payment Gateway Integration, Postman, Chrome DevTools

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

April 2026 – Present

High Digi Tech | New Delhi, India

- Delivered end-to-end full stack development for live client projects, translating business requirements into scalable, production-ready web applications using PHP, MySQL, and the MERN stack.
- Designed and implemented custom CMS and CRUD-based architectures, empowering clients with independent, backend-driven control over dynamic website content.
- Built and deployed responsive, mobile-first interfaces paired with optimized backend logic, improving page performance and overall user experience across projects.
- Applied Object-Oriented Programming (OOP) principles and modular code structures to ensure long-term maintainability and faster feature iteration.

Welcome India Holidays — www.welcomeindiaholidays.com

- Developed a dynamic travel website with a fully database-driven architecture, routing all user inquiries through an integrated PHP Mailer system for real-time email notifications.
- Engineered a fully dynamic travel package management module, allowing seamless creation, updates, and display of packages without any manual code changes.
- Built a dynamic blog system with a dedicated backend interface, enabling non-technical staff to independently publish and manage content.
- Architected the platform on a custom CMS with complete CRUD functionality, ensuring scalable and easily maintainable content management.
- Optimized site performance and implemented responsive design best practices, delivering consistent load times and usability across devices.

NutriaFghan — nutriaFghan.com

- Built a full-featured e-commerce platform with a fully dynamic navigation bar and catalog, eliminating hardcoded content and enabling flexible site updates.
- Implemented secure user authentication covering registration, login, and session management to protect customer accounts.
- Developed shopping cart and Buy Now functionality, streamlining the product selection and checkout journey for users.
- Integrated a payment gateway supporting both Cash on Delivery (COD) and online payments, enabling flexible and secure transaction options.

- Automated order confirmation emails, delivering real-time purchase and delivery details to customers immediately after checkout.
- Designed an auto-generated password system for new accounts alongside a secure self-service password reset workflow, strengthening account security and user autonomy.
- Focused on intuitive, user-friendly workflows and reliable order management to deliver a smooth, end-to-end shopping experience.

Full Stack Web Development Intern

Jan 2026 – March 2026

High Digi Tech | New Delhi, India

- Architected and deployed high-performance static sites and complex dynamic web applications, ensuring optimal load times and seamless user experiences.
- Engineered multiple PHP & MySQL projects focused on robust CRUD operations and custom-built Content Management Systems (CMS), improving content delivery and admin workflows.
- Architected and integrated a custom Admin Panel using PHP and SQL database, streamlining administrative workflows and enhancing operational efficiency.
- Engineered back-end data architecture and implemented seamless data retrieval to the front-end UI, enabling dynamic content rendering and improved user experience.
- Developed and deployed full-stack MERN applications using MongoDB, Express.js, React.js, and Node.js, focusing on building secure RESTful APIs and optimized frontend-backend communication.
- Applied Object-Oriented Programming (OOP) principles to structure clean, reusable, and maintainable codebases across multiple projects.
- Optimized application performance through code refactoring, efficient database queries, and responsive UI design using Bootstrap 5 and custom CSS.
- Collaborated with cross-functional teams using Git & GitHub for version control, code reviews, and iterative feature delivery.

Digital Marketing Assistant

Aug 2024 – Dec 2025

Emuaj Digital Marketing | New Delhi, India

- Generated comprehensive MIS reports using Excel (VLOOKUP, Pivot Tables, Conditional Formatting), enabling data-driven decision-making.
- Executed off-page SEO strategies including profile creation, backlink building, and business listings, boosting online visibility.
- Analyzed reporting metrics and improved data accuracy by 20% through systematic validation processes.

Data Entry & MIS Executive

Mar 2022 – Mar 2023

Jarvis Consultant | New Delhi, India

- Entered and validated large volumes of business data with high accuracy, maintaining data integrity across records.
- Prepared and distributed MIS reports, delivering actionable insights to management and key stakeholders.
- Coordinated with multiple departments to streamline reporting workflows and ensure timely delivery of business-critical information.

PROJECTS

Office CRM System (MERN Stack) — Ongoing Project

- Developing a role-based Office CRM system using the MERN Stack with dedicated dashboards for CEO, Manager, Team Leader, HR, and Employees.
- Building and managing core modules including Employee Management, Attendance, Leave Management, Task Assignment, Lead Management, and Project Tracking.
- Creating a centralized dashboard to track employee performance, task progress, attendance, and team productivity through reports and analytics.
- Integrating JWT Authentication, Role-Based Access Control (RBAC), Cloudinary, and real-time notifications to ensure secure, efficient, and scalable workflow management.
- Actively working on the project to deliver a streamlined internal management system with improved collaboration, monitoring, and operational control.

Custom CMS Platform — PHP, MySQL, Bootstrap 5

- Designed and deployed a full-featured CMS with admin panel, user authentication, and dynamic content management using PHP and MySQL.
- Implemented MVC-inspired architecture and OOP principles, reducing code redundancy and improving long-term maintainability.

MERN Stack Full-Stack Application — MongoDB, Express.js, React.js, Node.js

- Built a full-stack web application with secure JWT-based authentication, RESTful APIs, and a responsive React.js frontend.
- Optimized MongoDB schema design and query performance, achieving fast data retrieval for dynamic content rendering.

Responsive Static & Dynamic Sites — HTML5, CSS3, JavaScript, Vite, Bootstrap 5

- Developed and deployed multiple client-facing websites with mobile-first responsive designs, integrating custom UI templates and branding assets.
- Used Vite as the build tool to significantly reduce development iteration time and optimize production bundles.

EDUCATION

Bachelor of Computer Applications (BCA)

Indira Gandhi National Open University (IGNOU)

Aug 2020 – Jun 2023

12th Grade (Science)

Ram Roop Memorial Public School

Jun 2016 – Apr 2018

LANGUAGES

English (Professional Proficiency) | Hindi (Native)
